Din 55 510/ ISO3394/HTM71

The Pegasus modular medication cassette has a footprint of 600 x 400 mm therefore it can easily slide into any cart and cabinet that are designed to accommodate ISO 3394 modular systems.

The Pegasus modular medication cassette can slide into a side panel of an ISO 3394 cart or cabinet in 2 different orientations: 600 mm front for medication distributions purpose and 400 mm front for transfer carts applications.

Drug Transfer Storage System With Modular Medication Cassettes

Example of a logistic chain with the use of a medication cassette

The modular medication cassette is perfect for use in a drug distribution process.

Used cassette will be transferred back to the pharmacy

New loaded cassettes from the central pharmacy is distributed to the departments where the cassettes are being exchanged full to empty.

Electronic code lock

A user code can easily be programmed after the entry of a mastercode.

Key Lock

Per cassette we deliver 1 set of 2 keys.

Mechanical CodeLock

Numeric code lock, to be used with three numbers.

Seal lock

In combination with a NC seal there is a visual control of the lock.

Information

Cleaning
